

# HIPAA Compliance

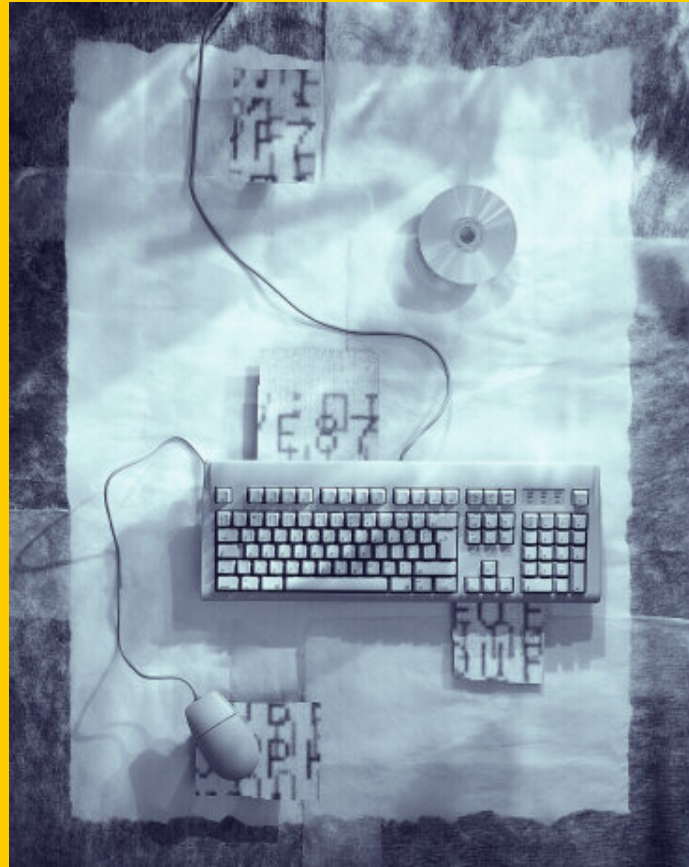

*Finally – a company that is on your side!*

ComteqUSA has worked with many doctors and hospitals to design an IT solution that meets and/or exceeds all of the HIPAA regulations as they pertain to Information Technology.

You have enough to worry about! Let ComteqUSA help you with your computer systems and network. We have worked with several large hospitals and understand the Health Insurance Portability and Accountability Act of 1996 (HIPAA). ComteqUSA understands HIPAA because we have been designing, implementing and managing computer networks for more than 15 years.

## Hardware Software Services

*An effective corporate information security program is essential to sound business practices and HIPAA Compliance. Many companies either don't have security policies or have policies that are wordy, hard to understand, vague, incompatible with other company policies, hard to implement or impossible to enforce. An organization's information security policies must provide a sound foundation for its overall security program. Applying the policies helps a company protect itself from undue harm and unnecessary risk. This is the foundation for HIPAA compliancy in the Information Technology arena.*

Solutions for Strategic Advantage

We have many options and have *Network Architects* available to help you design a custom Network System that fits your business model and budget. **Wireless Network** options are available.

### **HIPAA Option One**

**1** Server, **3** Desktops and **1** Printer

#### **Server**

Intel 2.5GHz Pentium4 Processor  
 1GB Ram  
 2 x 80GB Hard Drives (Mirrored)  
 2 x 10/100 NICs  
 3.5 Floppy / CDRW / DVD  
 Microsoft Keyboard & Mouse  
 56K Data/Fax Modem  
 Sound & Speakers  
 Small Business Server 2003

#### **Desktop**

Intel Celeron 2.5Mhz Processor  
 512MB Ram  
 80GB Hard Drive  
 10/100 NIC  
 3.5 Floppy / CDRW / DVD  
 Microsoft Keyboard & Mouse  
 56K Data/Fax Modem  
 Sound & Speakers  
 Windows XP Professional  
 Windows Office 2003 Standard

### **HIPAA Option Two**

**1** Server, **5** Desktops and **1** Printer

#### **Server**

Intel 2.5GHz Pentium4 Processor  
 1GB Ram  
 2 x 80GB Hard Drives (Mirrored)  
 2 x 10/100 NICs  
 3.5 Floppy / CDRW / DVD  
 Microsoft Keyboard & Mouse  
 56K Data/Fax Modem  
 Sound & Speakers  
 Small Business Server 2003

#### **Desktop**

Intel Celeron 2.5Mhz Processor  
 512MB Ram  
 80GB Hard Drive  
 10/100 NIC  
 3.5 Floppy / CDRW / DVD  
 Microsoft Keyboard & Mouse  
 56K Data/Fax Modem  
 Sound & Speakers  
 Windows XP Professional  
 Windows Office 2003 Standard

### **HIPAA Option Three**

**1** Server, **10** Desktops and **2** Printers with enhanced services.

#### **Server**

Intel 2.5GHz Pentium4 Processor  
 1GB Ram  
 2 x 80GB Hard Drives (Mirrored)  
 2 x 10/100 NICs  
 3.5 Floppy / CDRW / DVD  
 Microsoft Keyboard & Mouse  
 56K Data/Fax Modem  
 Sound & Speakers  
 Small Business Server 2003

#### **Desktop**

Intel Celeron 2.5Mhz Processor  
 512MB Ram  
 80GB Hard Drive  
 10/100 NIC  
 3.5 Floppy / CDRW / DVD  
 Microsoft Keyboard & Mouse  
 56K Data/Fax Modem  
 Sound & Speakers
