IT Project Management

Everyone wants their IT projects to be Successful. Those that are successful are not just lucky. Information Technology projects have the same problems and issues the world over, but some organizations recognize that the key is effective and timely project management.

The decision to employ project management disciplines is like the decision to insure against a set of risk. Not employing appropriate project management is in itself a risk, and identifying what is effective or timely requires experience.

ComteqUSA and/pr its employees have managed major IT projects for a wide range of clients, including Wells Fargo, Clorox, BART (Bay Area Rapid Transit), Xerox, Chevron and many more.

Areas that we practice in are:

- Technology Planning and Migration**
- National Deployment**
- IT Planning and Documentation**
- Business Process Engineering**
